

TURNILS MACHINE DIVISION

The machine in this picture may be fitted with additional equipment.

SUD RI Roller / Vertical blind machine – entry level model for easy and simple production

The RI is an easy-to-use and compact sewing machine for roller and vertical blinds.

This machine produces very accurate single turn roller blind pockets without the need for precreasing. The machine is available with interchangeable jigs so the operator can switch to produce vertical blind top and bottom pockets efficiently.

It is available in a stand up format with a "on load / off load" table.

SUD RI

RI features

– Compact machine – requires a minimum of space

Technical data

Current: Single phase 230V (50/60Hz)
